

Speaker/visitor guidelines:

Members are responsible that the speaker/visitor receives this information.

Categories

Categories are very unique to each member and DGO only allows one member to represent a category. Please be respectfully of categories that are already represented. If you have any questions about a category please connect with the DGO member who invited you.

Solicitation vs. Education

As per our mission statement the Durango Growth Organization prides its self on being an education based networking group. For this reason please no solicitation during the meeting. All visitors, include the invited guest speaker are expected to do a mimi-me (see below).

Mini-Me

Time varies (30 to 45 seconds) depending on the number of attendees. This is your time to introduce your business to the group. Interesting facts, education or statistics are encouraged. Remember; be very clear as to whom you are representing... YOU!

Major-Me

Time allotted is twenty minutes and is presented by an outside expert on visitor day. This guest speaker is not here to solicit our business but rather provide value to our group. To improve our businesses we hand pick our guest speakers and are excited to experience their knowledge and wisdom in their field.

PLEASE TURN OFF YOUR CELL PHONES!
